Hoàng Gia Huy

Computer Vision Engineer

TP.HCM • huy.hoang.demo@example.com • +84 900 000 006 • github.com/demo-giahuy

SUMMARY

Computer vision engineer with 5 years of experience in industrial inspection. Came from mechanical engineering and moved into ML through applied projects.

EDUCATION

Ho Chi Minh City University of Technology — B.Eng. in Mechanical Engineering 09/2015 – 06/2020
GPA 3.1 / 4.0

PROJECTS

Real-time Weld Inspection 2022

- YOLO-based detector in PyTorch with OpenCV, 30 FPS on edge GPU; exported with ONNX and served via FastAPI in Docker.

EXPERIENCE

Computer Vision Engineer — Delta Automation Vietnam 03/2021 – Present

- Designed and deployed CNN and YOLO models for 6 inspection lines.
- Built labeling and augmentation pipelines for 200k+ images.
- Optimized models for edge devices, cutting inference time by 55%.
- Used Git, Docker and GitLab CI/CD; documented methodologies for the engineering team.

Automation Engineer — Delta Automation Vietnam 07/2020 – 02/2021

- Programmed PLC and vision systems for production lines.

SKILLS

Languages: Python, C++
AI / ML: CNN, YOLO, Computer Vision, Model Optimization
Tools: PyTorch, TensorFlow, OpenCV, NumPy, Pandas, FastAPI, Docker, Git, GitLab CI/CD, Matplotlib
Languages (spoken): Vietnamese (native), English — IELTS 6.5 (2023)
